PROFESSIONAL SUMMARY

I am a highly skilled Front-end Engineer with years of experience in developing responsive and user-friendly websites. I am proficient in utilizing various web development tools and technologies, such as HTML, CSS, JavaScript, and React, to create visually appealing and functional websites. I possess excellent communication and interpersonal skills, with the ability to work collaboratively with cross-functional teams. I am a results-driven and detail-oriented professional who thrives in fast-paced environments and is committed to delivering high-quality work.

WORK EXPERIENCE

Front-end Engineer | Riby Finance | Lagos, Nigeria **(March 2022 - Present)**
- I successfully troubleshot and debug the application's interface software and application code, resulting in a smooth and bug-free user experience.
- I have added new features that would make the application more user-friendly and efficient. The resource tutorial that would help users learn how to use the app and a branch feature that gives the admin cooperatives more control over their branches.
- I collaborate with Product Managers and stakeholders to refine and prioritize support backlog items, aligning them with business goals and customer needs.
- I work closely with UI/UX designers to translate design concepts into functional front-end code.

Stack(Skills/Technologies): HTML| CSS| Typescript| Bitbucket| Git| Agile CRM| Click-Up| Postman.

Technical Support Engineer | Oze Nigeria Limited | Lagos, Nigeria **(Sep 2021 - May 2022)**
- I used MySQL skills to troubleshoot and correct data and database issues.
- I successfully resolved 80% of tickets within the agreed SLA.
- I used MySQL queries to create custom dashboards for data analysis on Redash.
- I actively participated in agile scrum methodology, collaborating with cross functional teams to ensure smooth communication and coordination between technical support and development teams.
- I attend sprint planning meetings to discuss and prioritize support tickets, that require attention from developers.

Stack(Skills/Technologies): MySQL| Hubspot| Metabase| Redash| AWS| Jira| FreshDesk| Agile CRM| Postman| Mixpanel| Confluence.

Front-end Engineer | Capricorn Digital Limited | Lagos, Nigeria **(Aug 2020 - Aug 2021)**
- I utilized agile project management tools and techniques to track the progress of tickets, ensuring their visibility and resolution within designated sprints.
- I Implemented payment integration modules and functionalities within the front-end, enabling secure and efficient payment processing for customers using the POS system.
- I developed and maintained the front-end components of the utility bill payment platform, allowing users to easily browse, select and pay their bills through a user friendly interface.
- I conducted regular debugging of front-end code to identify and resolve any issues or bugs, ensuring the smooth operation of the utility bill payment platform.

Stack(Skills/Technologies): HTML| CSS| JavaScript| Git| Agile CRM| Postman| Node JS

Front-end Engineer| Appcoy Software Technologies | Lagos, Nigeria **(January 2019 - July 2020)**
